PROFESSIONAL SUMMARY

Software Engineering student at African Leadership University (Expected 2027) with experience in software development, machine learning, mobile application development, entrepreneurship, digital marketing, customer service, and business operations. Skilled in Python, Dart, JavaScript, Bash, Flutter, React, REST APIs, Git, Linux, Firebase, and data analysis.

Built and contributed to 30+ software projects spanning machine learning, mobile applications, web development, backend systems, DevOps, and data structures & algorithms. Experienced in developing practical solutions through academic projects, independent software development, and entrepreneurial ventures.

Combines strong technical skills with hands-on business experience gained through managing a food business, social media campaigns, sales operations, and customer engagement. Passionate about building technology-driven solutions that solve real-world problems and create meaningful impact.

EDUCATION

BSc Software Engineering — African Leadership University
Kigali, Rwanda | **Expected 2027**

Relevant Coursework: Software Engineering, Mobile Application Development (Flutter), Shell Scripting, Web3 Security Research, Content Strategy, Full-Stack Web Development, Data Structures & Algorithms

Certification: Flutter Mobile App Development — Coursera, 2026

TECHNICAL SKILLS

Programming Languages: Python, Dart, JavaScript, Bash, HTML, CSS

Frontend Development: React, Vite, Tailwind CSS, Responsive Web Design

Mobile Development: Flutter, Firebase, REST API Integration, JSON Serialization, Stateful & Stateless Widgets

Machine Learning & Data Analysis: NumPy, Pandas, Scikit-learn, Classification Models, Neural Networks, PCA, Linear Regression, Data Visualization

Software Engineering: Object-Oriented Programming, Data Structures & Algorithms, Git, GitHub, Linux, REST APIs

Tools & Platforms: VS Code, Firebase, Jupyter Notebook, Google Workspace, Microsoft Office, Notion

BUSINESS & PROFESSIONAL SKILLS

Sales & Business Development • Customer Service • Food Preparation & Kitchen Operations • Product

Development • Pricing & Cost Management • Inventory Management • Digital Marketing • Social Media • Problem Solving • Decision Making • Creative Thinking • Communication • Teamwork • Leadership • Adaptability

ENTREPRENEURIAL EXPERIENCE

Founder / Food Entrepreneur — Caesar's Kitchen

Kigali, Rwanda | 2025–Present

- Prepare and sell food products including shawarma and Asun rice while maintaining quality, consistency, presentation, and customer satisfaction.
- Manage day-to-day kitchen operations, including ingredient purchasing, preparation, production, inventory, and restocking.
- Develop and test new food products and menu concepts based on customer preferences and market opportunities.
- Set prices by considering ingredient costs, portion sizes, customer demand, and profitability.
- Handle direct sales, customer communication, order management, promotions, and social media marketing.
- Make quick business and operational decisions when dealing with limited capital, changing demand, supply challenges, and unexpected situations.
- Manage the complete process from developing an idea and preparing the product to marketing it and converting customers into sales.
- Continuously identify opportunities to improve products, operations, customer experience, and revenue.

PROFESSIONAL EXPERIENCE

Social Media Manager — Bubble Tea Rwanda

Kigali, Rwanda | Aug 2024 – Aug 2025

- Created, wrote, and designed marketing content for TikTok, Instagram, and other platforms.
- Managed digital campaigns and developed content strategies to increase engagement and support sales.
- Communicated with customers and contributed to the company's online brand presence.

Remote Web3 Research Extern — Webacy

New York, USA | Remote | Jul 2024 – Aug 2024

- Conducted blockchain security competitor analysis and assessed decentralized solutions.
- Identified Web3 market disruptors and prepared strategic research reports.
- Analyzed market information and communicated findings in a professional remote environment.

Virtual Assistant Trainee — ALX

Remote | Jul 2024 – Aug 2024

- Managed virtual administrative tasks including email management and calendar scheduling.
- Supported administrative processes and client communication.
- Developed organization, time-management, and remote-work skills.

Creative Sales Representative — Paul & cc Enterprise

Lagos, Nigeria | Jan 2019 – Jan 2024

- Supported online sales activities and customer communication.
- Managed sales opportunities and contributed to KPI-driven sales strategies.
- Developed practical experience in customer engagement, persuasion, relationship building, and closing sales.

SOFTWARE ENGINEERING PROJECTS

[Taskflow](#) – React, Vite, Tailwind CSS

Developed and deployed a professional portfolio platform showcasing projects, certifications, technical skills, experience, and career achievements. Designed responsive interfaces optimized for desktop and mobile devices.

[Spotlight](#) – Flutter, Dart, Firebase

Designed a talent discovery platform enabling creators to showcase skills, build profiles, and gain visibility through a mobile-first experience.

[ConstructionConnect](#) – Flutter, Firebase

Contributed to a construction marketplace application connecting contractors, suppliers, and clients through a digital platform.

[Connect Care Rwanda](#) – Flutter

Developed healthcare-focused software aimed at improving access to healthcare-related information and services.

[ALU Machine Learning](#) – Python, NumPy

Implemented machine learning models including classification systems, neural networks, model evaluation techniques, and predictive analytics workflows.

[Linear Regression Model](#) – Python

Built predictive analytics solutions using linear regression techniques for data modeling and performance evaluation.

[alu-AirBnB_clone](#) – Python

Developed an object-oriented, console-based clone of the Airbnb platform, with a focus on backend data management.

[alu-shell](#) – Shell

Created Linux-based scripts for file management, user automation, and basic DevOps tasks.

[submission_reminder_app](#) – Shell

Developed a Bash-based alert application that reminds students of pending assignments, utilizing environment variables and text processing.

[alu-system_engineering-devops](#) – Shell

Worked on system engineering and DevOps tasks, focusing on network infrastructure and Linux utilities.

[alu-webstack](#) – Shell

Built backend configurations and scripts for web applications and network routing.

[DSA-HW01---Sparse-Matrix](#) – Python

Implemented matrix operations, including addition, subtraction, and multiplication, using sparse matrix optimization techniques.

[alu-interview](#) – Python

Solved algorithmic coding challenges as interview preparation modules.

[Playing-Around-with-APIs](#) – JavaScript

Developed API-based data fetching projects for interacting with external datasets.

[alu-web front end](#) – HTML, CSS

Created responsive websites as part of front-end development training.

[The-creator](#) – HTML

Designed simple web pages demonstrating static content deployment.

[More Projects](#): alu-back-end, alu-scripting, alu-web-development, alu-zero_day, alu-higher_level_programming

CERTIFICATIONS

[Neural Networks and Deep Learning](#) — Coursera (2026)

[R Programming](#) — Coursera (2026)

[Flutter and Dart: Developing iOS, Android, and Mobile Apps](#) — Coursera (2026)

[Financial Planning for Young Adults](#) — Coursera (2026)

ALX Virtual Assistant Program — ALX Africa (2024)

LEADERSHIP & COMMUNITY

ALU E-Lab Volunteer

- Participated in a community assistance initiative supporting a single mother through monetary and grocery contributions.

CONTENT & DIGITAL ACTIVITIES

- Create career and technology-related content across TikTok and Instagram, sharing practical career tips and insights with an audience of 20K+ job seekers weekly.
